Privacy policy

Compliance with General Data Protection Regulation

The Jericho Community Association is committed to maintaining the trust of its membership and staff.

Data on members of the JCA are collected as they join or renew in order to maintain a record of members of the Association, and so that we can notify members of regular activities and events.

Our membership list is held by Membermojo, a commercial company which has strong data security. We hold this data on current members, and also those who have been members in the previous three-year membership period in order to facilitate renewals. Data for earlier years are deleted. Members who wish to view, amend or delete the personal data that we hold, can do so via the membership pages on our website.

Data on staff are held securely on the Xero accounting platform for payroll processing. We also use Xero to hold data on current customers and suppliers for our accounting records. Data on users hiring rooms at the centre or renting rooms are also held on Xero, as well as on our ExpressionEngine content management system for our website.

We use the Google Analytics service to track which pages of our website are visited, on an anonymous basis. We do not permit Google to identify either individual visitors or the IP addresses they come from.

Agreed at the JCA Management Committee, 14th May 2018

Charlotte Christie
Chair
